Stop-Loss (stoplossaudit.com**)** *Apr 2026 – Present*

- Built the store-audit workflow as a Claude Code skill (github.com/hansonz1/E-Commerce-Audit) that reads the client store and 3 competitors, logs quotes, prices, and counts to an evidence ledger, then drafts a 10-section audit report.
- Pair each AI draft with a math audit from the owner's Shopify and ad data (true P&L, SKU margin, CAC vs. LTV, etc.); first audit found 4 friction points, the largest worth ~$217/month
